# Brand idea

## From plant to patient.

NEWMA is an AI-powered drug discovery platform from LivFul Therapeutics. The identity carries one idea: the journey from a plant, the source, to a pill, the medicine in a patient's hands.

The idea lives in a single shape: a capsule split into two halves. One half takes the greens of the plant, the other the deep teals of the pill. The same capsule replaces the crossbar of the capital A in the wordmark, and stands alone as the icon.

Tone is precise, grounded and hopeful. Colour is used with restraint. Every element should feel engineered, not decorated.

# Primary logo

newmA

BY LIVFUL THERAPEUTICS

## The wordmark

newmA is set in Work Sans Bold: lowercase letters with a capital A, all drawn to the same height.

## The capsule

The A's crossbar is replaced by a capsule, green on the plant half and teal on the pill half, divided by a thin seam.

## The byline

BY LIVFUL THERAPEUTICS is set in Geist Mono Bold and spaced to the exact width of the wordmark.

Use the primary logo on white or Mist backgrounds whenever space allows.

# Logo versions

**newmA**

BY LIVFUL THERAPEUTICS

## Primary

Default. Light backgrounds.

**newmA**

BY LIVFUL THERAPEUTICS

## Reversed

Dark backgrounds and photography.

**newmA**

BY LIVFUL THERAPEUTICS

## Mono ink

One-colour print, stamps, fax.

**newmA**

BY LIVFUL THERAPEUTICS

## Mono white

Over colour or imagery.

**newmA**

## Wordmark

Tight spaces. Byline removed.

**newmA**

## Wordmark reversed

Tight spaces on dark.

# Clear space & minimum size

## Clear space

Keep a margin of **x** on every side, where x is the x-height of the wordmark (the height of the letter n). Nothing else may enter this zone.

## MINIMUM SIZES

|                  |                     |
|------------------|---------------------|
| Logo with byline | 160 px / 40 mm wide |
| Wordmark only    | 110 px / 28 mm wide |
| Pill icon        | 16 px / 5 mm        |
| Favicon          | 16 × 16 px          |

# The pill icon

**Colour**

**Reversed**

**Mono ink**

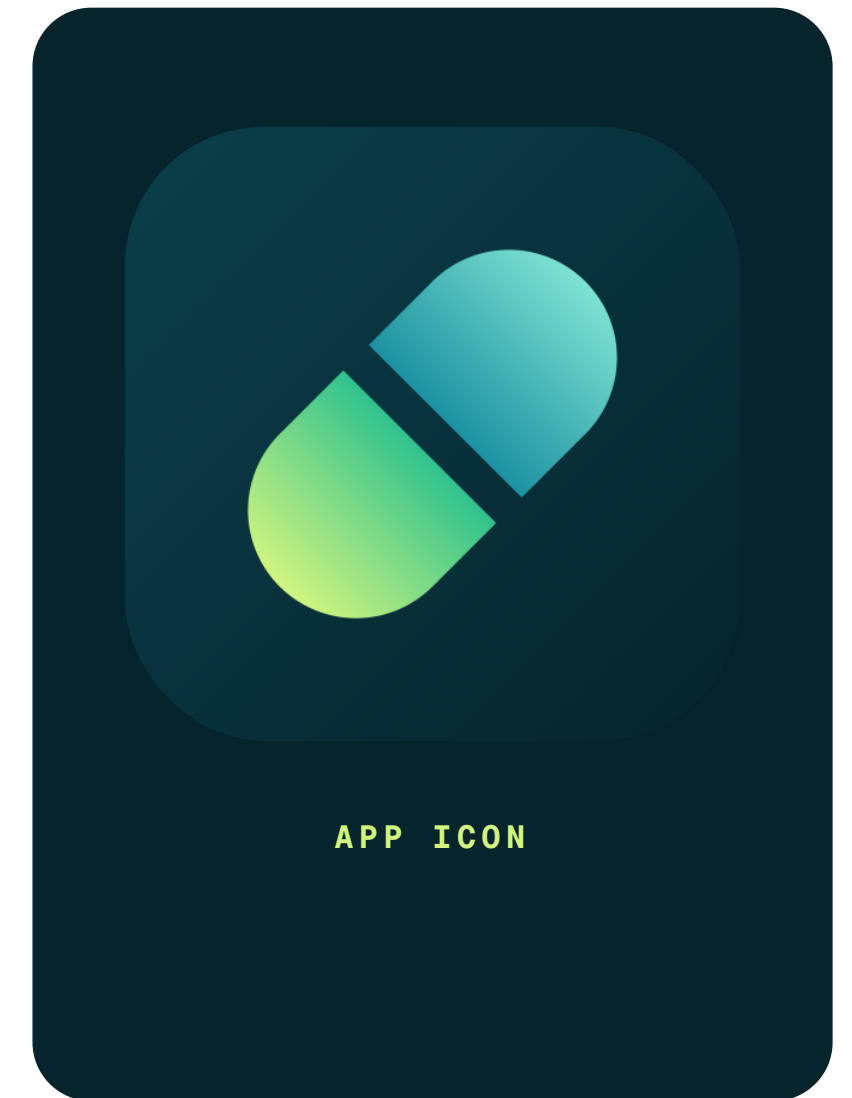

**Mono white**

## Construction

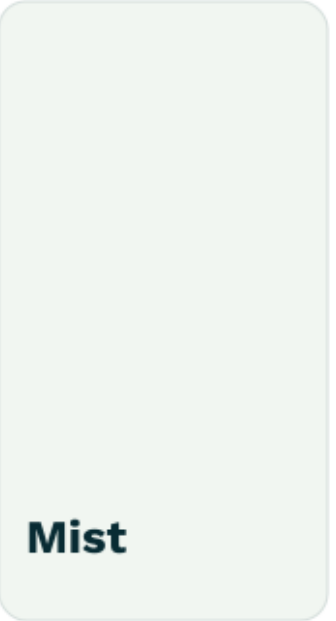

A capsule with a 2:1 ratio, rotated 45° and divided by a seam. The plant half sits lower left; the pill half rises to the upper right, signalling progress from source to medicine.

## Use

Favicons, app icons, avatars, patterns and as a standalone mark where the name is already present. Do not place the icon beside the wordmark: the capsule already lives inside the A.

# Colour palette

|                                                                                    |                                                                                    |                                                                                     |                                                                                      |                                                                                      |                                                                                      |                                                                                      |                                                                                      |

## Gradients

Plant

Pill

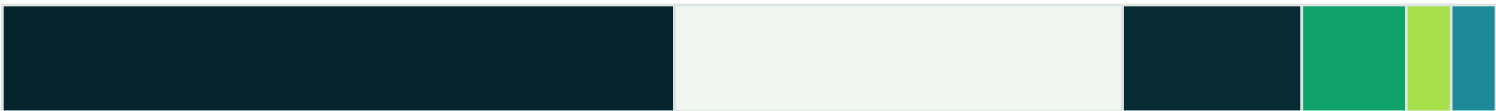

Brand

CMYK values are approximate conversions. Confirm with your printer before production.

# Colour usage & accessibility

PROPORTION

Backgrounds and text carry the identity. Emerald, Lime and Teal are accents for the pill, highlights and calls to action. Never let accents outweigh neutrals.

Rules of thumb

Body text uses Ink or Slate on white or Mist, never Emerald or Teal.  
Lime is for dark backgrounds and small highlights only.  
Use gradients only for the pill and large decorative fields.

CONTRAST RATIOS (WCAG 2.1)

|                  |         |               |
|------------------|---------|---------------|
| Ink on Mist      | 13.67:1 | AAA           |
| Mist on Night    | 14.82:1 | AAA           |
| Emerald on White | 3.24:1  | AA Large only |
| Teal on White    | 4.08:1  | AA Large only |
| Lime on Night    | 10.33:1 | AAA           |
| Slate on White   | 5.72:1  | AA            |
| White on Emerald | 3.24:1  | AA Large only |
| Ink on Lime      | 9.53:1  | AAA           |

Emerald and Teal on white do not reach 4.5:1, so they are not suitable for body text. Use them for graphics, large type or on dark backgrounds.

# Typography
